Synlogic to Webcast Presentation at the SVB Leerink 8th Annual Global Healthcare Conference

February 20, 2019

CAMBRIDGE, Mass.--(BUSINESS WIRE)--Feb. 20, 2019-- Synlogic(Nasdaq:SYBX) announced today that Aoife Brennan, M.B., B.Ch., Synlogic's president and chief executive officer, will provide a corporate update at the SVB Leerink 8th Annual Global Healthcare Conference at 1:30 pm ET on Thursday, February 28, 2019, in New York City.

A live webcast of the presentation can be accessed under "Event Calendar" in the Investors & Media section of the Company's website. An archive copy of the webcast will be available on the Synlogic website for approximately 30 days after the event.

About Synlogic
Synlogic is pioneering the development of a novel class of living medicines, Synthetic Biotic medicines, based on its proprietary drug development platform. Synlogic leverages the tools and principles of synthetic biology to genetically engineer beneficial microbes to perform or deliver critical functions missing or damaged due to disease. Synthetic Biotic medicines are designed to act locally and have a systemic effect to address disease in patients. Synlogic's two lead programs, SYNB1020 and SYNB1618, are orally administered and target hyperammonemia as a result of liver damage or genetic disease, and phenylketonuria, respectively. Synlogic is also developing SYNB1891 as an intratumorally administered Synthetic Biotic medicine for the treatment of cancer. In addition, the company is leveraging the broad potential of its platform to create additional Synthetic Biotic medicines for the treatment of liver disease, as well as inflammatory and immune disorders, including Synlogic's collaboration with AbbVie to develop Synthetic Biotic-based treatments for inflammatory bowel disease (IBD).
