

Synlogic to Webcast Presentation at the Oppenheimer 29th Annual Healthcare Conference

March 13, 2019

CAMBRIDGE, Mass.--(BUSINESS WIRE)--Mar. 13, 2019-- [Synlogic\(Nasdaq:SYBX\)](#) announced today that Caroline Kurtz, Ph.D., Synlogic's Head of Metabolism, will provide a corporate update at Oppenheimer's 29th Annual Healthcare Conference at 3:20 pm ET on Wednesday, March 20, 2019, in New York City.

A live webcast of the presentation can be accessed under "[Event Calendar](#)" in the Investors & Media section of the Company's website. An archive copy of the webcast will be available on the Synlogic website for approximately 30 days after the event.

About Synlogic

Synlogic is pioneering the development of a novel class of living medicines, Synthetic Biotic medicines, based on its proprietary drug development platform. Synlogic leverages the tools and principles of synthetic biology to genetically engineer beneficial microbes to perform or deliver critical functions missing or damaged due to disease. Synthetic Biotic medicines are designed to act locally and have a systemic effect to address disease in patients. Synlogic's two lead programs, SYN1020 and SYN1618, are orally administered and target hyperammonemia as a result of liver damage or genetic disease, and phenylketonuria, respectively. Synlogic is also developing SYN1891 as an intratumorally administered Synthetic Biotic medicine for the treatment of cancer. In addition, the company is leveraging the broad potential of its platform to create additional Synthetic Biotic medicines for the treatment of liver disease, as well as inflammatory and immune disorders, including Synlogic's collaboration with AbbVie to develop Synthetic Biotic-based treatments for inflammatory bowel disease (IBD).
